Re: Sierra Smiles Greenfan® Bipolar Ionizer Installations

To: Whom It May Concern

We installed greenfan® bipolar ionizers in eleven (11) HVAC systems at our dental offices located at 5465 Kietzke Ln, Reno, NV 89511, 10595 Double R Blvd, Reno, NV 89521, and 308 Dorla Ct #202, Zephyr Cove, NV 89448. To our knowledge none of our employees or patients were infected with the SARS-CoV-2 virus that causes COVID-19 during the pandemic at our offices. Based on our experience, we recommend the greenfan® bipolar ionizer to deactivate the virus and maintain healthy dental offices for employees and patients.

Advantages of the greenfan® bipolar ionizer include.

- Intertek® Verified zero ozone per UL 2998, C22.2 #187, UL 867, and CARB certified.
- Automatic resettable fuse, unaffected by magnetic fields, works with 120 to 240VAC with accessory transformer, and provides consistent ion concentrations over 20 to 30VAC.
- Installed on HVAC fan inlet, connects to fan G and heat W terminals, made in USA, and covered by 5-year warranty when installed, operated, and maintained per instructions.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Bocchi", is written over a horizontal line.
